Laura

Ron said he has a newer version of the Jamestown film....that he wants to review. What I would like to do is send you and Ron a MeetMe phone dial-in with a code access. Ron can walk us through getting remote access to his film. Martin is not at his desk....what about the 3 of us watching the film.....then later asking for their comments/suggestions?

John

thanks John. I'm telecommuting today but would like Joe or Martin to be part of any decisions with Ron ... so, I'd hold off on anything final but if Ron just wants clarification or to bounce some ideas around, we could coordinate a call. Thanks for the other info, if you are able to find a manual for the video software (like on the internet), let me know and we'll see if Chris Freed/Phillip can buy it. Thanks, lw

Laura:

...just to let you know....

1. Ron Adelberg called and will call back to review the latest version of Jamestown....if you are in, it might be better to do this together.
2. I am reviewing an AM for Cedaredge
3. I've sent Paul my final version of Red River Supply Warehouse...and my choice of photos....of course, next will be for you to review....I just wanted him to correct any mistakes before you reviewed it....and then we can send it to Peter.
4. I'm on page 37 of the 187 page camcorder manual....and still know very little....some of the "magic"....I want to ignor until I have the basics....
5. I'd like to find a manual on the software....that is what remains a mystery to me do-sic-por (up to now).
